

Guide to Off-Campus Psychiatry Services

Provided by the Student Counseling Center, Rhodes College
Effective August 19, 2024

If you wish to use LynxConnect, Rhodes' telehealth partner, to meet virtually with a psychiatrist without using your insurance at no additional charge:

Go to [Rhodes College ALC | Telehealth \(myahpcare.com\)](https://myahpcare.com) to sign up for psychiatry services through AcademicLiveCare. Please note that these psychiatrists cannot prescribe ADHD medications.

Instructions for signing up, including how to use the coupon code to ensure the services are free of additional charge, may be found here: [Rhodes-ALC UG 2024-Code.pdf \(myahpcare.com\)](https://myahpcare.com).

If you wish to use a psychiatrist who is in-network with your health insurance:

You can obtain a list of psychiatrists from your insurance provider's website, but be mindful that the information there may be out-of-date.

Call identified providers and ask:

- Is Dr. X accepting new patients? If yes...
- Is Dr. X still in network with [insurance company]? If yes...
- When is your next available appointment for a new patient?

Sometimes, calling multiple providers to see who is available can be helpful.

The following psychiatrists are local and are accepting new patients as of August 2024. Please verify that the psychiatrist is currently accepting your insurance.
