

COVID-19 Vaccine Locations

With the recent surge of COVID-19 cases occurring across the nation, now is an incredibly important time to consider receiving the COVID-19 vaccine in order to protect yourself and your loved ones from the virus. Fortunately, there are numerous resources that can be used to identify COVID-19 vaccine opportunities.

The CDC provides a helpful vaccine finder tool on their official website that allows anyone to find COVID-19 vaccine locations (<https://www.vaccines.gov/search/>). To find a vaccine location in your community, simply enter in your zip code and preferred type of COVID-19 vaccine, and the website will quickly identify all locations in the area. The city of Memphis also identifies numerous COVID-19 vaccination opportunities on their official website, including pop-up locations around the community (<https://covid19.memphistn.gov/>). Please note that the COVID-19 vaccine is free under the Rhodes College health plans. If you prefer to receive the COVID-19 vaccine from your physician, please contact your healthcare provider to schedule an appointment.

We encourage you to utilize the CDC vaccine finder tool and/or other online resources to receive the most up-to-date COVID-19 vaccine location information. Listed below are a few vaccination locations in the Memphis community and surrounding areas for your reference. If you have questions or concerns regarding the COVID-19 vaccine, please complete the COVID-19 Vaccine Education course available in Workday Learning.
